PROFESSIONAL SUMMARY

Software engineer with 3+ years of experience delivering web and mobile applications for banking and fintech clients. Led front-end development of the Vista Bank Mozambique mobile banking apps on Temenos Infinity (live May 2026) and builds full-stack products in React, Next.js, Node.js and React Native. Also trains students as a part-time instructor at Aptech. BSc Computer Science, Second Class Upper (CGPA 3.77/5); NYSC completed.

TECHNICAL SKILLS

- Frontend: React, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, Bootstrap, Redux, jQuery, HTML5 and CSS3
- Mobile: React Native, Expo (EAS builds, push notifications), Android and iOS banking apps, native module bridging, Google Play and App Store releases
- Temenos Infinity stack: Temenos Infinity, Fabric, Visualizer app builds, T24 core banking integration, biller and third-party service integration, Fabric authentication flows, REST service orchestration
- Backend and data: Node.js, Java, REST APIs, JWT, OAuth and role-based access, MongoDB, PostgreSQL, MySQL, Firebase, Supabase, Socket.io
- Tools and delivery: Git and GitHub, GitHub Actions and CI/CD, Figma, Postman, Jest, Cloudinary, Paystack and Flutterwave payment integration

PROFESSIONAL EXPERIENCE

Technical Consultant, Techmaestrogroup - Jan 2026 - Present

- Led front-end development of Android and iOS mobile banking applications on Temenos Infinity, including the Vista Bank Mozambique go-live (May 2026), released on Google Play and the App Store.
- Owned integration of core banking (T24) services, third-party billers and RESTful APIs into the application layer, with Temenos Fabric for authentication flows.
- Reduced reported UI defects by about 30% through structured testing and release management.
- Cut release turnaround from 2 weeks to under 5 days through streamlined build configuration and release pipelines.
- Collaborated with backend engineers, designers and client teams to turn requirements into consistent, high-quality interfaces.

Instructor (part-time), Aptech Computer Education (Agodi, Ibadan) - Jun 2026 - Present

- Teach and mentor 50-100 students on Aptech programmes (CPISM, Office Automation).

Associate Technical Consultant, Techmaestrogroup - Jan 2025 - Dec 2025

- Built and maintained 10+ reusable front-end modules for an enterprise banking application, accelerating feature delivery across multiple clients.
- Integrated RESTful APIs, improving data-flow reliability and reducing data-fetching inconsistencies.
- Contributed to QA and deployment cycles, reducing post-deployment incidents through disciplined pre-release testing.

Project Supervisor, Expehi Nig Ltd. - Aug 2024 - Dec 2024

- Sole developer responsible for front-end architecture; built a responsive corporate website and CMS for 3+ service lines, cutting manual content effort by about 50%.

Software Developer Intern and Tutor, 234 Web Resources Technologies - Jun 2022 - Jan 2024

- Built core features for a full-stack e-commerce platform (React.js, Node.js, Firestore), including AI-assisted chat and automated PDF report generation.
- Mentored 5+ junior developers through structured onboarding sessions.

SELECTED PROJECTS

- Ventry (React Native with Expo mobile app, Next.js and MongoDB API with JWT, Expo push notifications, React Query).
- Church member app (React Native with Expo mobile app, Next.js and MongoDB backend with JWT, Cloudinary uploads and Nodemailer).
- ESMS, Estate Management Platform (Next.js, MongoDB, Tailwind CSS): 100+ units, multi-role authentication and QR visitor verification with audit trails.

- The Legal Space, thelegalspace.com (Next.js, Supabase, Google sign-in, Socket.io, React Query): front-end build for a legal network connecting lawyers and the people who need them.
- Internship Forum (Next.js, REST API, Clerk, Tailwind CSS): marketplace with dashboards for 3 user types and role-based access control.
- Thrift4All, Student Marketplace (final-year project, Grade A): live at thrift4all.netlify.app.

EDUCATION AND CERTIFICATIONS

BSc Computer Science, Second Class Upper (2:1), Redeemer's University, Ede, Osun (Nov 2020 - Aug 2024). NYSC completed.

EC-Council Certified Secure Computer User; Oracle SQL and Java SE Fundamentals (2024); The Web Developer Bootcamp 2025 (Udemy)
